UNIVERSITY PROJECTS

DIET APPLICATION

July 2022

- Built and released a responsive web app using **JavaScript**, allowing users to get a customized Diet Chart keeping into consideration their weight, height, the disease they suffer from, and other relevant information
- Led a team of 3 members to attempt to solve the alarming health concerns of the people of India through this app
- Collaborated with a renowned Dietician to assess the problem and come up with a solution

PERSONAL PROJECTS

TWITTER CLONE

July 2022

- I've built this Application from scratch using the **MERN** stack
- Gave this app features such as User register/login, tweeting, interacting with tweets, the basic **CRUD** operations for all the tweets, and others
- Made reusable components with the help of **React**
- The UI is inspired by that of Twitter

CHAT APPLICATION

June 2022

- 'ChatsApp' is a responsive web app highly inspired by the working and design of WhatsApp
- You can join a 'room', chat with any number of people present in the same 'room' from all around the world using any kind of device
- I've utilized **Node.js** in the backend along with the **Socket.io** library to enable real-time bidirectional communication
